1:00-5:00 p.m. GENERAL SESSION
6:00 PM Officers Installation Banquet

THURSDAY, SEPTEMBER 28

7:30-8:30 a.m. New Board of Directors

Always a Friend

By MACo President Doug Kaercher

I read the other day that it is hard to measure a mountain until you have reached the top. Well, I have reached the top and found a very large mountain.

The shadow that MACo casts across this state is immense. MACo's size and reputation has nothing to do with who is standing at the top. Neither I, nor those who came before me, nor those that will lead in the future, have much to do with this organization's success. MACo's success is due only to its members.

Throughout my presidency I have stressed that members working together for the benefit of the whole, combining their voices to be heard as one, makes us one of the most respected organizations in this State. We should stand proud in our accomplishments, not only in the last year, but over our long history.

It has been very rewarding to serve as MACo President. I have had some great moments being the voice of MACo ranging from the local to state to the federal levels. Being involved in the Insurance Trusts has been the most enjoyable and educational experience. Their existence and function continues to be crucial to the Association and our members. Last year we were able

to bring claims in-house, saving the trusts and their members over \$400,000. We have built a new building to house the claims departments, adding to our assets. We are off to a successful start to providing a health care trust.

We have made our presence known at the national level thru NACo. The sponsorship of several steering committee positions has proven to be an excellent partnership between the State and MACo.

We saw Harold Blattie's first year come and go as executive Director with him exceeding our greatest expectation.

A special thanks goes to a very talented MACo staff and an executive committee that is second to none.

Last but not least, I want to thank all of you for allowing me this great opportunity of representing MACo. This experience has allowed me to see county government in a light that only a few will be able to experience. I will always hold a special place in my heart and look forward to serving as your Past President next year.

Always a friend to MACo,
Doug

MACo GOLF TOURNAMENT

Sunday, September 24

Tee times start at 9:00 am.

\$42 for 18 holes with cart

Format will be provided at the golf course.

MACo INSURANCE TRUSTS BUILDING PROGRESS

CANDIDATES for MACo SECOND VICE PRESIDENT

JEAN CURTISS MISSOULA COUNTY

ELECTED 2001

MACo Participation

Health and Human Services Committee
Conference Planning Committee
Urban Counties Chair
Commissioner Certification program

Community Involvement

Montana & National PTA
Economic Development Boards serving
Missoula, Ravalli & Mineral Counties
Health and Human Services Boards
Leadership Montana Class 2005-2006

Special Ability: Ability to listen to concerns and bring people together around the issues. Ability to keep people focused on the issues

MACo Thoughts: MACo should take a leadership role in convening other organizations and agencies together to focus on the future of Montana. We cannot continue to work in silos. MACo should therefore:

- Host a focused board retreat
- Prioritize issues of importance
- Address issues related to growth

JOHN OSTLUND YELLOWSTONE COUNTY

ELECTED 2003

MACo Participation

Chair - Transportation Committee
Conference Planning Committee

Community Involvement

MACRS President
Big Sky Economic Development Board
Billings Chamber Board of Directors

Special Abilities - I have a strong business background, owning a commercial aviation storage and retail aviation fuel business. I worked for Yellowstone County Road & Bridge Dept. for 30 years before elected as county commissioner. I have been involved with MACo for many years and feel my experience and leadership will keep MACo a top notch organization.

MACo Thoughts

I work to balance rural road needs with contractor priorities and will address this issue during the upcoming legislative session. MACo provides many valuable services. Our goal should be to improve each year on the services provided, including risk management, worker's compensation and legislation.

MIKE MCGINLEY BEAVERHEAD COUNTY

ELECTED 2001

MACo Participation

Chair – Economic Development Committee
NACo Community & Economic Development
Steering Committee
Commissioner Certification

Community Involvement

Dillon Volunteer Fire Department
Beaverhead Development Corporation

Special Abilities

Goal & result oriented
Ability to work with all people
Leadership Montana – Class of 2005

MACo Thoughts

MACo is an organization that is best when all member counties are involved. MACo must keep the concerns of all counties at the forefront of any legislative issue. Our strength will show in our lobbying efforts.

LANCE OLSON CASCADE COUNTY

ELECTED 2003

MACo Participation: Resolutions Committee

Community Involvement: Parks & Recreation Board, Gateway Recovery Board, Chamber of Commerce Board of Directors, Opportunity's Incorporated Board, Senior Citizens Center Board, Weed & Seed Board

Special Abilities: To gather and review information before making decisions. From my 35 years as a barber I became a great "listener"!!

MACo Thoughts: My goal would be to continue providing a direction of unity and allow individual County issues to be acknowledged and addressed by all County members, large or small. MACo has been very instrumental in my development as a County Commissioner. Whenever I have needed background and or data on issues I have been able to contact MACo and have always received quick and detailed answers to my questions. MACo not only serves as a unifying organization for all of us as Commissioners but as a great source of data and information as well as guidance based on passed history and a well informed professional staff.

DELEGATE ASSEMBLY RULES

Resolutions and/or Bylaws

Rule 1 Any resolution or bylaw change from a member district or county not submitted at the District meeting must be submitted to the Resolutions Committee no later than the Sunday before the Annual Convention in order to be presented to the Board of Directors for their approval.

Rule 2 Any resolution or bylaw change not submitted through Rule 1 will not be considered by the Delegate Assembly unless two-thirds of the delegates present and voting elect to suspend the rules to consider late proposals. Late proposals shall be accompanied by copies for all delegates and shall be available prior to the Introduction and Consideration of Bylaw Changes or Resolutions.

Voting Procedures

Rule 3 Each regular member has one vote. (Regular members shall be those counties which contribute annually to the financial support of the Association.) There shall be one county delegate and one alternate with the authority to vote. The delegate and the alternate must be elected county officials.

Rule 4 In speaking to a motion, a delegate will be limited to three minutes except wherein this rule has been suspended by a vote.

Rule 5 All voting shall be by show of hands or voice vote, subject to the call of the chair. A roll call vote will be conducted upon request by a delegate from the floor.

Rule 6 Debate is considered privileged and a "call for the question" cannot be used to limit debate. A vote to close debate requires a two-thirds vote of the delegates voting.

Suspension of Rules

Rule 7 Any of these rules may be suspended by a two-thirds vote of those present and voting.

MACo STAFF CHANGES

A FOND FAREWELL...

After 26 years in county and state governments, serving as a county commissioner, MACo and NACo committee chairs, job training program manager and MACo's publications and website officer, Marie McAlear retired from MACo in August. We all wish her well in her retirement.

AND A WARM WELCOME...

Kerissa Smith is MACo's new Administrative Assistant, beginning September 11, 2006. Kerissa is a graduate of Helena High School and has most recently been employed by the Montana Contractors Association, where she managed all functions for the operation and marketing of MCA's physical and internet plans rooms, in addition to providing assistance to the management of the Association. Kerissa has a very strong knowledge of software applications and will conduct research and information gathering along with data sorting and management, allowing MACo to better serve our members. Kerissa and fiancé Rick Lyman have October wedding plans. So the next time you call the office, be sure to welcome Kerissa to the MACo team!

2006-33	Selection of Professional Services

IN MEMORIAM

Bill Rappold, Pondera County Commissioner (1991-2002) passed away September 5. Bill was a rancher by trade, and possessed a great devotion to public service. Bill served as President of MACo from 1997-98. He was a member of the Valier School Board of Trustees, Pondera County Hospital Commission, Golden Triangle Mental Health Board, TLC, Council on Aging and the Pondera County Park Board. Bill enjoyed the remaining years of his life at home on the family ranch.

Andreas (Andy) Grande, Meagher County Commissioner (1967-1991), passed away August 23 in Bozeman. He was a respected businessman and community leader, serving four terms on the county commission. He also worked in banking and ranching, as well as continuing his life-long talents as a musician and dancer. He is survived by his wife Joyce and three children and families.

Charlie Rock, former Mineral County Commissioner, (1985-1996) passed away recently.

MACo PROPOSED BY-LAW AMENDMENTS

#1 ARTICLE II MEMBERSHIP

This proposed amendment would create three classes of membership in MACo, Regular, Associate and Affiliate. Currently affiliated groups such as Clerk and Recorder and Treasurer's Associations are grouped together with businesses as Affiliate members. Affiliated member organizations should be a separate class of membership from business and should have lower membership dues.

Section 3. AFFILIATE MEMBERS:

Affiliate members are ~~individuals, businesses and~~ organizations and agencies that make proper application, are approved for membership by to the Executive Director, and pay dues adopted by the Board of Directors and ~~ratified by the membership~~. Affiliate members shall be entitled to receive services as determined by the Board of Directors. They shall have no floor or voting privileges.

Section 4. ASSOCIATE MEMBERS: (New section)

Associate members are individuals and businesses that make proper application, are approved for membership by the Executive Director, and pay dues accordingly. Associate members shall be entitled to receive services as determined by the Board of Directors. They shall have no floor or voting privileges.

#2 ARTICLE IV BOARD OF DIRECTORS

This proposed amendment would allow for the Board of Directors to submit dues adjustments for member consideration at times other than the Annual meeting. It would also add a conflict of interest disclosure requirement upon members of the MACo Board of Directors.

Section 3. DUTIES AND RESPONSIBILITIES

The Board shall have the powers and duties to:

- a) develop the policies of the Association within the guidelines set by the voting membership;
- b) establish a central office;
- c) employ an Executive Director, and to set his/her salary;
- d) remove the Executive Director at any time after allowing adequate due process;
- e) view and approve annually the Executive Director's Staff Policy and Procedures Manual;
- f) review and approve annually a budget sufficient to meet the needs of the Association;
- g) prepare a schedule of services for members and affiliate members with recommended dues and assessments for each;
- h) present recommended dues increases and assessments, if any, to the membership at the annual conference for approval and adoption;
- i) the Board may increase the dues schedule in an amount up to the annual COLA in any one year. Any increase above the annual COLA must be approved by the membership at the annual conference.
- j) authorize an annual independent audit of the Association by a firm of certified public accountants;
- k) function as the nominating committee and select at least two candidates each for the office of Second Vice President and Fiscal Officer. No candidate can be nominated and run for two offices simultaneously. Nominations may be made at district meetings of county commissioners and submitted to the Board;
- l) amend the approved budget by a majority vote of the Board of Directors.
- m) immediately disclose any conflict of interest prior to acting in any manner that may impinge upon their duty as a Board member. They shall also recuse themselves and/or abstain from any vote or decision involving said conflict.

#3 ARTICLE V EXECUTIVE DIRECTOR

This proposed amendment would implement a policy decision of the Board of Directors to remove MACo position descriptions from the MACo Personnel Policy and require the Executive Director to maintain detailed position descriptions and policy manuals. It would also require the Executive Director to obtain approval from the MACo Board of Directors prior to creating any new permanent employee positions.

#3 ARTICLE V - EXECUTIVE DIRECTOR (Continued)

The Executive Director shall compile, publish and maintain a "Staff Policy and Procedures Manual", which shall be reviewed annually by the Board of Directors. ~~The Staff Policies and Procedures Manual shall include a detailed job description for the Executive Director and such other staff positions as may be created.~~

The Executive Director shall maintain detailed position descriptions for all positions.

The Executive Director shall maintain a policy manual, containing all Board and operational policies.

The Executive Director shall be responsible for the hiring and termination of staff personnel consistent with the "Staff Policies and Procedures Manual". The Executive Director shall receive approval from the Board of Directors prior to creating any new permanent employment positions.

The hiring of an Associate Director shall be by the Executive Committee and the Executive Director with confirmation by the Board of Directors.

#4 ARTICLE VI - STANDING COMMITTEES

This proposed amendment would remove the requirement that the Board of Directors approve the membership of the MACo Resolutions Committee. This requirement has not been adhered to for an unknown number of years. It also removes the requirement that the Resolution Committee members select one member to serve as the committee chair and directs the MACo President to appoint the committee chair.

Section 1. RESOLUTIONS AND LEGISLATIVE COMMITTEE

The Resolutions and Legislative Committee shall consist of at least five members. Members (one of whom shall be a member of the Board of Directors) are appointed by the President, ~~subject to approval of the Board of Directors.~~ The Committee members President shall select the chairperson from their own number. It shall be the duty of the Committee to develop resolutions and to receive resolutions from the Regional Districts and MACo staff. The Committee may consult other elected county officials to determine resolutions beneficial to county governments, and work with those officials to promote beneficial resolutions. The Committee shall examine resolutions to be placed before the membership for proper form and content, organize them by category, combine similar resolutions, and recommend priorities.

The Committee shall have legislation drafted as directed by resolutions approved by the membership at the annual conference or special meetings; and assist the Executive Director in securing sponsorship for the legislation. The Committee, together with the Executive Director, shall recommend to the Officers and the Board the response of the Association to all legislation affecting county government.

#5 ARTICLE IX - ANNUAL CONFERENCE AND PROCEDURES

This proposed amendment would bring the MACo Bylaws into conformance with Roberts Rules of Order. and remove a conflict between sections of the bylaws. Article IX, Section 3 of the MACo Bylaws requires official business of the association to be conducted in accordance with Roberts Rules of Order.

Section 5. ELECTIONS

The election of officers shall occur at the annual conference and be governed by the rule of majority – over 50% plus one of the entire votes cast. The ballot will be repeated in the event of the failure of a candidate to receive a majority with the nominee receiving the lowest number of votes removed from the ballot for purposes of the subsequent vote of the members.

#6 ARTICLE IX - ANNUAL CONFERENCE AND PROCEDURES

This proposed amendment would simply incorporate the most recent date of amendments to the bylaws.

Section 7. EFFECTIVE DATE

These by-laws having been duly amended by a majority vote of the members cast at the 96th 97th Annual Conference, held in Bozeman, MT on September 28, 2006. These by-laws will be effective upon the adjourning of the annual conference with all provisions for compliance in regard to the elected officers of the Association having been provided for by action on the floor of the Association.

Owners of Fire-impacted Property, Forestlands May Qualify For Property Tax Relief

Montana property owners whose homes or forestlands burned during this summer's wildfire season may be eligible for significant property tax relief, and are encouraged to contact their local Montana Department of Revenue office for assistance.

"We express sincere sympathy to those Montanans whose homes, lands and other property have been damaged or destroyed by this year's wildfires," said Governor Brian Schweitzer. "We want them to be aware that we can provide some relief on their upcoming property tax bill."

A property owner whose home or outbuildings were partially or totally destroyed by wildfire, rendering the property unsuitable for its previous use, may be eligible for property tax relief. The tax relief is prorated based on the number of days in the tax year that the property was unusable. The relief is available for the current tax year. Property owners must complete Form AB-25 to apply for the property tax relief. The application should be completed by December 31.

In addition, a forestland owner whose standing timber has been destroyed by wildfire during 2006 will receive a 50% reduction in the assessed value for 20 years beginning with the 2007 tax year. The land impacted by the wildfire must have been classified as commercial forest by the Department of

Revenue prior to the loss.

Forestland owners must complete Form AB-26. The AB-26 can be completed at any time following the loss. However, to be eligible for a reduction on the 2007 tax bill, the forestland owner must complete and submit Form AB-26 by the first Monday in June of 2007, or within 30 days of receipt of the 2007 property tax assessment, whichever is later.

Both Forms AB-25 and AB-26 are available at all Department of Revenue local offices. The forms also can be downloaded from the department's website at www.mt.gov/revenue.

"This tax relief is significant for affected property owners throughout the state," said MT Department of Revenue director Dan Bucks. "It will assist Montanans in recovering after a devastating wildfire season." Montana property owners who experience a fire-related loss of a dwelling also may be eligible for an income tax deduction. In addition, the department can issue replacement copies of property records, past-year tax returns or other revenue-related information that is lost in a wildfire.

For more information, contact your local Department of Revenue office or visit the department's website at www.mt.gov/revenue.

Kaercher to Testify

MACo President, Doug Kaercher is scheduled to testify before the Aviation Subcommittee of the Senate Commerce Committee on September 14, 2006 to support reauthorization of the Essential Air Service Program (EAS). President Kaercher will present testimony for the National Association of Counties on behalf of the 150 communities in the U.S. that have recipient airports, and in particular Montana's seven communities that have EAS designated airports.

The Essential Air Service Program is not only important to those eight Montana communities; it is essential to all of Montana. Without the financial support provided by EAS, Montana's only point-to-point carrier, Big Sky Airlines, may not survive. This would bring an end to being able to fly from one airport in Montana to another, without going through Denver or Salt Lake.

For example, many Montanans routinely fly from Wolf Point or Glendive to receive medical services in Billings. This is not a matter of convenience; it is a matter of necessity. Many of you fly Big Sky Airlines to attend meetings or the legislature in Helena. Without EAS, this would not be possible, even from communities such as Billings and Kalispell that are not EAS-designated communities but whose residents use Big Sky Airlines.

Please Support Mike's Marathon-a-thon

Submitted by: Mike Murray, Lewis & Clark Co. Commissioner

Fellow non-golfing county commissioners: We have the opportunity on Sunday, September 24 to watch Beaverhead County Commissioner Mike McGinley finish a marathon at the "Cats" football stadium at about noon. I can't do the 2 laps he must do to finish the 26+ mile course, so let's be there to encourage him to.

He is chasing his youth in hopes of returning his body to that of a 20 year old---and raising a little money for the YMCA. If you wish to sponsor Mike and his efforts, please donate for this "kids" efforts. Please use the form below.

COMMISSIONER THOMPSON IN D.C.

by ANTHONY QUIRINI - Ravalli Republic

Ravalli County Commissioner Alan Thompson testified before Congress about how federally mandated policies slow the process of recovering burned salvageable timber. Thompson was asked to testify on behalf of NACo before the Subcommittee on Forestry, Conservation, and Rural Revitalization.

A bipartisan bill, the "Forest Emergency Recovery and Research Act", which was passed by the House, allows counties, federal and state agencies to take short cuts to harvest burned timber, bypassing steps under the National Environmental Protection Act. According to NACO Executive Director Larry Naake, the current lengthy process leads to the degradation of timber and leaves the restoration costs to taxpayers. The idea behind harvesting the burned timber is to offset the costs for fighting fires while reducing the amount of fuels for future wild-fires.

Thompson described recent stewardship projects in timber harvests through which the contractor was responsible for planting trees, seeding and placing straw waddles to reduce the amount of erosion, instead of paying for the timber.

"With the high-fuel loads, drought, diseased trees and hot dry temperatures, the scenario for fires like those of 2000 is once again possible," he said. Thompson said the Bitterroot Forest encompasses 75 percent of the total land mass of Ravalli County. The fires of 2000 burned more than 300,000 acres, so the issue is especially important to the County. The fire suppression costs exceeded \$54 million dollars, and the County assessed a levy to help pay for the costs.

VIBRATION-RELATED MUSCULOSKELETAL RISK

*Submitted by Emelia McEwen, MACo Assistant Risk Manager
A two-part series from CTDNews, written by Joshua Clifton*

Thousands of jobs require employees to spend a majority of their day working with machinery. While increased automation in the manufacturing sector has helped control some of the negative side effects of these jobs, occupational vibration remains a serious health threat. The Institute for the Study of Human Vibration at the University of Tennessee estimates that at least 10 million people in the United States are exposed to occupational vibration each day at work. Prolonged exposure to vibration can lead to severe musculoskeletal disorders by affecting tendons, muscles, joints, back and nerves.

Exposure is generally in two categories -- whole-body vibration and hand-arm vibration. Whole body vibration commonly affects employees who sit or stand on work surfaces that vibrate. Examples include truck, bus or equipment drivers or employees who work on vibrating loading docks and platforms. The vibration caused by vehicle engines and roadways can shake the body and eventually result in micro fractures in the vertebrae and acute back pain.

Hand-arm vibration usually affects employees who use power tools, such as sanders, routers, drills or circular saws. Exposure to this type of vibration can result in fatigue, pain, numbness, tingling, increased sensitivity to cold, and decreased sensitivity to touch in the fingers, hands and arms. In addition, these types of tools and equipment may require workers to use more force and awkward postures to control, resulting in back pain and other musculoskeletal disorders.

Whole-body Vibration

Whole-body vibration is found in nearly every job in the transportation sector. Research has shown that truck and bus drivers have higher-than-average risk for developing significant lower-back pain. Other health effects that have been associated with whole-body vibration include hemorrhoids, high blood pressure, kidney disorders, and even impotence and other adverse reproductive effects.

Whole-body vibration can also be a safety risk. Semi-truck drivers can possibly lose control of their vehicles due to numbness and deadness in the operator's hands as he attempts to safely control the wheel and other crucial functions. In addition, low-frequency vibrations of moderate intensity can induce sleep. Higher frequencies have the opposite effect. Vision can also become blurred because of the movement of the image on the retina.

What steps can employers take to control and eliminate whole-body vibration?

- ▶ **Limit the time spent by employees on a vibrating surface.** Rotate employees through the workday to prevent continuous exposure.
- ▶ **Maintain floor surfaces for vehicles** to reduce vibration exposure from driving over uneven surfaces.
- ▶ **Reduce travel speed to reduce vibration levels.**
- ▶ **Require rest breaks to avoid constant continued exposure.**
- ▶ **Obtain information on equipment vibration and recommended maintenance schedules** from the vendor.
- ▶ **Minimize the vibration created between floor ramps and vehicles** by maintaining ramps and dock levelers.
- ▶ **Improve vehicle suspension and use vibration isolation or dampening for seating** to reduce vibration transmission.
- ▶ **Encourage workers to incline the backrest up to the 10 degrees and use lumbar support.**

...to be continued in October with information on hand-arm vibration

NACo INFORMATION

NACo, in partnership with Nationwide Retirement Solutions (NRS) and MACo, provides county employees with a Section 457 Deferred Compensation Program. Since its inception in 1980, the Program has grown to become the largest supplemental retirement income program available to county employees. More than 380,000 county employees from over 1,900 counties currently participate in the Program, with accumulated assets of more than \$6 billion.

The NACo Deferred Compensation Program offers county employees a way to augment retirement savings while postponing the payment of federal and, in many cases, state income taxes. The Program allows county employees the opportunity to voluntarily contribute a portion of their wages to a special account and to direct these contributions to one or more investment options. Thus, the Program offers county employees a valuable savings alternative that can be used to supplement their retirement income. The program also provides county governments an additional benefit option to offer to their employees.

Employee Benefits

- Helps public employees save for their future at no cost to their employer.
- Enables public employees to reduce current taxes

- Institutes a systematic savings program for public employees
- Automatic contribution deductions make it easy for employees to save
- Contributions grow on a tax-deferred basis
- Employees are 100% vested in their accounts.

Employer Benefits

- Helps employers to recruit and retain high-caliber personnel
- Usually less expensive to maintain than defined benefit plans
- Employer contributions are not subject to Federal Insurance Contributions Act (FICA)
- Flexibility in program design

NACo Oversight

What makes the NACo Deferred Compensation Program truly unique is that NACo, the only national organization that represents the interests of county governments, takes an active role in the oversight and quality control of the Program. The NACo Program was created by county employees for county employees. The Program has not lost sight of this philosophy and utilizes an Advisory Committee comprised of county officials.

NACO TRANSPORTATION STEERING COMMITTEE REPORT - PART 1 of 2

Jamie Doggett, Meagher County Commissioner

The NACo Transportation Steering Committee held two full days of meetings at the National Conference in Chicago. The focus of these meetings was to develop new policy in preparation for the reauthorization of the federal airport and aviation program, which expires next year, and continuing to monitor other relevant transportation issues. Congress must pass new legislation by September 2007 that both reauthorizes the airport programs such as the Airport Improvement Program and Essential Air Service and the user fees that pay for much of the federal programs. Several speakers from the aviation industry (airports, airlines, FAA and general aviation) presented their perspective on the proposed legislation.

The new highway and transit legislation (SAFETEA-LU) was signed into law last August; however, there are several issues that need to be continually watched. There is some concern that the Highway Trust Fund may not collect enough fuel tax dollars to fund SAFETEA-LU and the Transportation Steering Committee passed a resolution relating to this concern.

The Administration's FY 2007 transportation budget request is \$65.651 billion, up from the current year level of \$61.253 billion or 7%. There were many cuts in funding which the House and Senate added back into the budget for nearly every fund. The House approved its transportation appropriations bill on June 14, with the Administration's funding levels for highways and mass transit. They increased funding to the Airport Improvement Program to \$3.7 billion. Essential Air Service was increased to \$117 million. MACo President, Doug Kaercher will present Essential Air Service testimony to Congress during September committee hearings. Amtrak funding was increased in the House to \$1.114 billion. The Senate version of the Transportation Funding bill was approved by the Appropriations Committee in July. They provide for \$39.1 billion for the highway program and \$8.875 billion for transit. AIP is funded at \$3.52 billion and Essential Air Service at \$117 million. The big increase in the Senate version is Amtrak which gets \$1.4 billion, substantially above both the Administration and the House levels.
